

USB 2.0 to SATA Enclosure

**Bridge between USB, SATA, and
ATA/ATAPI-based mass storage devices.**

FEATURES

- Use a new SATA drive with an older computer that only has IDE and USB interfaces.
- Accepts any standard 3.5" SATA or SATA II hard drive.
- RoHS compliant.
- Compliant with Serial ATA II Electrical 1.0.
- Compliant with the USB Mass Storage Class, Bulk-Only Transport specification.
- Supports plug-and-play.
- Supports SATA hot-plug feature.

OVERVIEW

This enclosure upgrades your 3.5" IDE disk drives to USB 2.0 ATAPI host commands.

NOTE: Does not include SATA or SATA II hard drive.
